

What is Claimed is:

1. A herbal composition for treatment of diabetes mellitus comprising compositions of a predetermined quantity of *Toona sinensis* and a predetermined quantity of *Heracleum lanatum*.

5           2. The herbal composition, as recited in claim 1, wherein said *Toona sinensis* is leaves of *Toona sinensis* and said *Heracleum* is roots of *Heracleum lanatum*.

3. The herbal composition, as recited in claim 1, wherein said quantity of *Toona sinensis* is not less than said quantity of *Heracleum lanatum* by weight.

10           4. The herbal composition, as recited in claim 1, wherein said quantity of *Toona sinensis* is smaller than said quantity of *Heracleum lanatum* by weight.

5. The herbal composition, as recited in claim 3, is prepared by a preparation method comprising the steps of:

a) providing said predetermined quantity of *Toona sinensis*;

15           b) providing said predetermined quantity of *Heracleum lanatum* wherein said *Toona sinensis* and said *Heracleum lanatum* has a predetermined composition ratio by weight;

c) adding said *Toona sinensis* and said *Heracleum lanatum* to form an essential composition having a predetermined volume;

20           d) adding a predetermined volume of water to said essential composition to form a pre-heat mixture wherein said volume of water and said volume of said essential composition has a predetermined mixing ratio of 1:1; and

e) heating said pre-heat mixture under a predetermined temperature for a predetermined heating time to form an after-heat mixture.

6. The herbal composition, as recited in claim 5, wherein said preparation process further comprises a step f) obtaining a final solution of said herbal composition by decantation.

5 7. The herbal composition, as recited in claim 4, is prepared by a preparation method comprising the steps of:

a) providing said predetermined quantity of *Toona sinensis*;

b) providing said predetermined quantity of *Heracleum lanatum* wherein said *Toona sinensis* and said *Heracleum lanatum* has a predetermined composition ratio by weight;

10 c) adding said *Toona sinensis* and said *Heracleum lanatum* to form an essential composition having a predetermined volume;

d) adding a predetermined volume of water to said essential composition to form a pre-heat mixture wherein said volume of water and said volume of said essential composition has a predetermined mixing ratio of 1:1;

15 e) heating said pre-heat mixture under a predetermined temperature for a predetermined heating time to form an after-heat mixture; and

f) obtaining a final solution of said herbal composition by decantation for external application.

8. A process of treatment for diabetes comprising the steps of:

20 a) providing a treatment plan having a predetermined number of days and a predetermined number of dosages of herbal composition with respect to each of said number of days;

b) administering said number of dosages of herbal composition with respect to said number of days according to said treatment plan;

wherein said herbal composition comprises a predetermined quantity of *Toona sinensis*.

9. The process, as recited in claim 8, wherein said predetermined number of days is 30 days from a first day to a thirtieth day.

5           10. The process, as recited in claim 9, wherein said predetermined number of dosage is 60 and said treatment plan comprises two dosages of herbal composition in each said number of day, a first time in the morning and a second time at night.

11. The process, as recited in claim 8, wherein said *Toona sinensis* consists of leaves of *Toona sinensis*.

10           12. The process, as recited in claim 9, wherein said *Toona sinensis* consists of leaves of *Toona sinensis*.

13. The process, as recited in claim 10, wherein said *Toona sinensis* consists of leaves *Toona sinensis*.

15           14. The process, as recited in claim 11, wherein said quantity of *Toona sinensis* is 25 leaves in said first day and an addition of 5 more leaves in each following consecutive day.

15. The process, as recited in claim 12, wherein said quantity of *Toona sinensis* is 25 leaves in said first day and an addition of 5 more leaves in each following consecutive day.

20           16. The process, as recited in claim 13, wherein said quantity of *Toona sinensis* is 25 leaves in said first day and an addition of 5 more leaves in each following consecutive day.

25           17. The process, as recited in claim 8, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

18. The process, as recited in claim 9, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

5           19. The process, as recited in claim 10, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

10           20. The process, as recited in claim 11, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

15           21. The process, as recited in claim 12, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

20           22. The process, as recited in claim 13, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

            23. The process, as recited in claim 14, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

25           24. The process, as recited in claim 15, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

25. The process, as recited in claim 16, wherein said treatment plan further comprises a predetermined quantity of *Heracleum lanatum* in said herbal composition, wherein said quantity of *Heracleum lanatum* and said quantity of *Toona sinensis* are equal in weight.

5           26. The process, as recited in claim 14, wherein said herbal composition is prepared by the steps of:

a) providing said *Toona sinensis* having a predetermined volume;

b) adding a predetermined volume of water to said *Toona sinensis* such that said volume of *Toona sinensis* and said volume of water are equal;

10          c) heating said *Toona sinensis* and water and obtaining a final solution.

27. The process, as recited in claim 16, wherein said herbal composition is prepared by the steps of:

a) providing said *Toona sinensis* having a predetermined volume;

15          b) adding a predetermined volume of water to said *Toona sinensis* such that said volume of *Toona sinensis* and said volume of water is equal; and

c) heating said *Toona sinensis* and water and obtaining a final solution.

28. The process, as recited in claim 26, wherein said *Toona sinensis* is fully immersed in water in step (b).

20          29. The process, as recited in claim 27, wherein said *Toona sinensis* is fully immersed in water in step (b).

30. The process, as recited in claim 26, wherein said volume of water in step (b) is six cups and said final solution in step (c) has a volume of 2 cups.

31. The process, as recited in claim 27, wherein said volume of water in step (b) is six cups and said final solution in step (c) has a volume of 2 cups.

32. The process, as recited in claim 26, wherein said volume of water in step (b) and said final solution in step (c) has a ratio by volume of 3:1.

33. The process, as recited in claim 27, wherein said volume of water in step (b) and said final solution in step (c) has a ratio by volume of 3:1.

5           34. The process, as recited in claim 28, wherein said volume of water in step (b) and said final solution in step (c) has a ratio by volume of 3:1.

35. The process, as recited in claim 29, wherein said volume of water in step (b) and said final solution in step (c) has a ratio by volume of 3:1.
